10 STEPS TO KITCHEN HEAVEN

You've no doubt seen a particular style that's perfect for you and would also like to take advantage of our free home design visit. Planning and fitting a kitchen can seem like a complicated process, so it's worth taking a look at our helpful step-by-step guide to make realising your dream design with Tesco Kitchens altogether easier.

STEP 1

LET'S TALK KITCHENS

We'll call you, usually within 48 hours, simply to discuss the style you'd like, the approximate size of your kitchen and a convenient time for a free home visit. Don't worry if you haven't all the answers to hand, as we'll guide you through the whole process.

STEP 3

GETTING THE BASICS RIGHT

You'll then receive a clear plan and detailed quotation for your basic installation from the Kitchen Design Consultant, excluding any additional work.

STEP 2

YOUR FREE DESIGN VISIT

One of our Kitchen Design Consultants will come to measure your kitchen and discuss everything in detail, including the appliances you'd like, any layout changes and our installation service. They'll also explain charges for additional work required, sketch the new layout and confirm your requirements.

STEP 4

MAKING IT HAPPEN

Your dedicated Project Manager will ensure every aspect of the installation runs smoothly and happens on time. They'll explain the pre-installation survey, who your Installer will be and what will happen. You'll be asked to confirm you're happy with the items ordered, and will be able to contact your Project Manager directly throughout the process if you have any questions.

STEP 5

MADE TO MEASURE

Next you'll have a pre-installation survey with your Installer, who will double-check the measurements and all ordered items. He'll talk through any adjustments with you and update your Project Manager. He'll also agree any additional work not included in the basic installation, like tiling or gas installations.

STEP 7

DELIVERY DAY

A Delivery Team from Mark Two will bring your kitchen order, and inform you about what to expect during the delivery. You'll be able to track the delivery online and your order will be placed in a room of your choice.

STEP 6

READY FOR ACTION

Now it's over to your Project Manager to make any necessary changes to the order, ensure your payment is processed on time and agree a convenient delivery date. They'll also confirm your installation date and let you know approximately how long it will take.

STEP 8

IT'S ALL COMING TOGETHER

Installation start day! Your Installer will check everything has arrived and is in order, while the Project Manager will give you a call to ensure it all runs smoothly.

STEP 9

KITCHEN COMPLETE

Once everything is fitted your Installer will ask you to sign your Certificate of Completion. Make sure you're happy with every aspect of your new kitchen and the installation. You'll also receive the relevant gas and electrics certificates for your new kitchen.

STEP 10

FINISHING TOUCHES

Your lovely new kitchen's in and your Project Manager has received the Certificate of Completion. On hand to take care of any queries you may have, they'll give you a quick call to ask a few questions about your experience as well as to wish you a happy future in and out of the kitchen!
